

# ORANGE PEKOE BLEND "SALADA" TEA

"Fresh from the Gardens"

## Make a New Start

The winter of 1931-32 is passing.—It is almost gone. Admittedly, it has been a winter of trial, of hardship of great difficulty, even of mortal suffering for many. It has been a period of trying men's souls, that faith in the theories of the past, and the test. The experience may have left some scars for years, it has undoubtedly taught some bitter lessons, and these, in the long run, may not be without their value. At all events, it is to be hoped so. But the present, and pleasant, fact is that this winter of ours is discontent, disappointment and trial is almost over. For so much we can offer thanks.

With the passing of this winter, there is also a growing belief, becoming more and more general, that the worst of the so-called business depression likewise comes to an end; that from this time onward there will be a steady improvement, albeit slow and gradual. It is not to be expected—nor indeed would it be desirable—that there will be anything spectacular in this better time. As there was at the beginning of the depression, the task of the stock market is to move. The upward movement of a permanent character, and to be permanent, must be slow and gradual, with nothing of the mushroom variety about it.

However, during this winter people have been thinking as they perhaps never thought before, thinking seriously, thinking continually. What was beginning to seem a farce has become a reality, what was beginning to seem a farce, so many times foreshadowed, has become a reality. Many unsound theories were exploded, so many bubbles burst, that people generally, including statesmen and politicians, great financiers and business executives, as well as the humble laborer and wage earner, have been forced back to acceptance of and reliance upon the tried and true in economics and the basic foundations of our society. In itself, it is a great gain and full of promise for the years that lie ahead.

One writer in a magazine devoted to business raises the interesting question as to the extent to which the ill-considered choice of a word has played a major part in producing the psychological atmosphere of our far from satisfactory business conditions. He says that if the period of depression were to have received a pleasant, more optimistic name, the happier and more accurate choice of "business recession" is conceivable that the general attitude toward our present, our still troubling present, and our probable future for some time, might have been distinctly different. While the two phrases might have the same literal meaning, each indicating that business is going down or less successful than a previous period of time and situation, the right word, he writes, would have meant somewhat more cheerfully, more hopefully, had we thought of it as having merely "dropped" than as having actually "dropped." It is clear that "recession" is a much less fearsome word than "depression." Casually we picture things as coming back much more easily than as coming up, although the same forces may affect and move us in both directions. It would be well to have a word and to feel so good, in the effect upon ourselves, to think and measure business as having merely receded for the time being rather than as being in a hopelessly depressed state.

Apart from this, however, with the coming of Spring in each and every year, the days grow longer and less cold, and the world comes to life again. Nature feels the returning human beings are inspired with new hopes and animated with renewed energy. The dark days and long nights of winter give place to the longer days of bright sunshine and shorter hours of night. Everybody feels a desire to busy themselves about something useful and productive. Nature itself, every hand is aroused from its long sleep, and it will do good, in the effect upon ourselves, to think and measure business as having merely receded for the time being rather than as being in a hopelessly depressed state.

It is up to us as individuals to throw off the depression which has upset and unnerved us, which actually made cowards of some of us, and, realizing that it was rather a recession of former good times which took place, set ourselves energetically and hopefully to the task, not only of checking that recession, but of bringing ourselves, our businesses, our country, back to the more satisfactory plane upon which it has been our happy lot in former years to move and live.

## Placing Settlers On Land

### Figures Given By Government Show Number In Each Province

Of the 44,959 persons placed on the land by the government, 1,075 are from the immigration department and the transportation companies, 13,199 were unmarried men, 6,352 families (averaging five members to a family) and 24,352 men. This was the answer of Hon. W. A. Gordon, Minister of Immigration, to a question in the House of Commons.

Alberta, with 2,193 families and 3,520 single men, received the largest number of immigrants.

The total of other western provinces follows:

Province: Fam. Single  
British Columbia ... 534 156  
Saskatchewan ... 1,455 1,929  
Manitoba ... 661 2,002

Teacher.—What is the first thing you would do if you lost a shilling and found it again?

Tommy.—Stop looking for it.

## New Type Of Optical Glass

### For Use In High Grade Telescopes

Discovery of a new type of optical glass was claimed by Dr. E. Raymond Riegel of the University of Buffalo. The new glass was described as possessing "great resistance to weather and a high degree of reflectivity." It was the first glass ever produced which contained bismuth. Dr. Riegel said. Development of the glass was completed in the Bailey and Sharp laboratories at Hamburg, N.Y. The glass was expected to be used in high grade telescopes and field glasses, as well as laboratory microscopes.

Dr. Riegel's Gravest Worm External will draw the worm out of the system without injury to the child, because it action, fully effective.

Add a spoonful of paraffin to the water when washing linoleum. It removes stains and helps preserve the covering.

## Law Works Both Ways

### Proposing Invasive Responsibility For Girls As Well As Men

Ladies with Leap Year intentions had better think thrice before they leap in 1932!

It is very difficult to know and propose to the man you want to marry. But suppose one proposes, hears boy friend lips a shy "yes" and then changes her mind. Is that still a woman's privilege?

The law works both ways, and there are already a few such suits on record," said Miss Ellamarie Falor, a New York lawyer.

Even if jurors smicker, a woman's right to propose is the girl who throws him down. For a marriage promise is a bilateral contract and a very special one, legally speaking. It implies that something is to be given or promised, a promise to be given, in other words, and at the moment they are made each must be of equal weight or seem so, to "contracting parties."

"Long ago in English law it was decided that a woman could not break a promise made to a man. Falor said. The question came up because a woman's promise was not held in very high regard, popularly, and it was decided whether she could be held to it. But the law said that the marriage promise is a mutual one, and if it is not to be binding on one side it must not be on the other. It was generally agreed a man should not be allowed to throw a woman over, either, without a penalty.

## Skin Loveliness

### Easy to Have. Famous Vegetable Pills Better than Creams

Miss E. T. has proved it. She says: "I can get a smooth skin without the complexion clear than all the face creams I have tried." She is right. The famous *Vegetable Pills* to both liver and bowel, developed by Dr. Carter's Little Liver Pills are with the following: Skin, Liver, Heart, Arthritis, Headaches, Headaches and Indigestion, 25c. & 75c. red pills, every where. Ask for Carter's by NAME.

## A Woman Geologist

### Talented Scotswoman Awarded Medal in Recognition of Research Work

One of the medals awarded for the current year to geologists of distinction by the Council of the Geological Society of London goes to a Scotswoman—Dr. Maria M. Ogilvie Gordon. The 32-year-old geologist is a daughter of the late Rev. Dr. Alexander Ogilvie, Aberdeen, receives the high honor of a Lyell Gold Medal, together with £300 from the Lyell Geological Fund, for her outstanding researches on the structure of the Western Dolomites (Tyrrol), Dr. Ogilvie Gordon studied at Munich University, and was awarded the Ph.D. degree with highest honors in 1900, when the degree was for the first time conferred by that University on women, says the Glasgow Herald.

It is up to us as individuals to throw off the depression which has upset and unnerved us, which actually made cowards of some of us, and, realizing that it was rather a recession of former good times which took place, set ourselves energetically and hopefully to the task, not only of checking that recession, but of bringing ourselves, our businesses, our country, back to the more satisfactory plane upon which it has been our happy lot in former years to move and live.

## Acids In Stomach Cause Indigestion

### Create Bileous Gas and Pain How To Treat

Medical authorities say that nearly nine-tenths of the cases of stomach and bowel trouble, so common in this country, are due to an excess of hydrochloric acid. When it is irritated, digestion is delayed and the result is indigestion, flatulence and symptoms which every stomach sufferer knows.

Artificial concoctions are not needed to treat this trouble. Just lay aside the layling aside all digestive aids and Elastured Manness, and take a tea-water right after eating. This sweetens the acid and the result is a reduction of excess acid and there is no souring powder or tablet form—never liquid—expensive to take and is the most effective and safe medicine for this purpose.

It is used by thousands of people who have much with no fear of indigestion.

## Argentine May Exhibit Plans To Send Wheat To World's Grain Exhibition

The Argentine government has recommended that Argentine farmers send exhibits of wheat and other products to the world's Grain Exhibition to be held in Regina, Saskatchewan, in 1933.

The decision was made at a conference of government agricultural officials seeking to increase the efficiency of Argentine farming methods and to open new export markets for the Argentine farmer.

In 1930 the United States' 22,600 movie houses sold \$1,500,000,000 worth of admission tickets.

A new first-aid device is liquid adhesive for fastening bandages.

## CHILD need REGULATING?

## CASTORIA WILL DO IT!

### British and Foreign Investments Amount To Over Six Billion Dollars

## Investments In Canada

British and foreign investments in Canada amount to about \$6,125,959,000, according to figures recently issued by the Dominion Bureau of Statistics. The total business capital employed in Canada is \$17,500,000,000, exclusive of private capital in domestic enterprises such as farms, homes, etc. About 65 per cent. is owned in Canada.

This estimate is based upon more complete information as to the distribution of ownership of the securities of incorporated companies in Canada in 1930, obtained through the census, industry and other investigations. The national wealth is rated at about \$30,400,000,000.

Of the British investments in Canada, the amount in 1930 was \$14,184,270,000, was in Dominion, provincial, and municipal securities; \$1,674,865,000 in railway securities; \$50,248,000 in the pulp, paper, and timber industry; \$1,100,000 in mining and smelting; \$36,816,000 in other industries; \$402,270,000 in all other public utilities; \$250,000,000 in merchant marine; \$2,000,000 in mercantile establishments; \$209,222,000 in finance and insurance; and \$383,030,000 in land and mortgages.

The total of British investments by British and foreign countries amounted to \$16,125,959,000, the largest share \$3,728,745,000 was held by people of the United States. Britishers held \$1,024,000,000 and other countries \$171,185,000.

Sixty-seven per cent. of British investments are in government securities and public utilities, chiefly railways.

United States investments are 50 per cent. in government securities and public utilities and 50 per cent. in other securities, chiefly industrial and mining.

Internal parasites in the shape of worms in the stomach and bowel of children sap their vitality and retard physical development. They keep the child from growing, and if not treated, and if not attended to, endanger life. The child can be spared much suffering by the use of *Castoria* and by using a reliable worm remedy, such as Miller's Worm Powders, which are sure death to worms.

Chemical research hopes to cut back laying costs by perfecting a breed which will produce a workier hen to lay larger bricks with the effort now required to lay one.

Little Ethel—Mother, are you the nearest relative, I've got?

Her mother—Yes, dear, and your father is the closest.

It takes nearly 1,700 pounds of wheat to produce one pound of wheat, 1,425 quarts of water to produce one pound of oats.

Mahatma Gandhi is an old-timer, used to be a lawyer. Well, the way he dresses now, he looks like a centaur who has just paid a lawyer.

A hot knife will cut fresh bread smoothly.

Lexington, Ky., has a cemetery for great racing horses.

## RHEUMATISM

Don't suffer with rheumatism. You're getting older from Aspirin. Simple, but how effective! Those woe days, when suffering is acute. If you take Aspirin, the pain subsides. Take it right away. Take enough to drive away every twinge. Aspirin can't hurt you. It does not depress the heart, or upset the stomach.

If you ever have those painful attacks of neuralgia, neuritis, sciatica, lumbar, get some Aspirin. And just follow the proper directions. These tablets are just as effective in such suffering as in the case of simple headaches, colds, etc. The relief is felt immediately.

Carry the pocket tin. Aspirin will insure your comfort through the cold season. Get the genuine tablets of absolute uniformity, each bearing the Bayer cross. Buy them in bottles of 100 tablets, or this familiar little box.

Tablets Aspirin  
Bayer *GENUINE*

## SHE LOST 18 lbs.

Here is a lady who writes:—"I am most thankful I have seen your paper. I am a lady who has just now come to Canada. I read about was such a simple one—just that almost magical morning I took a bath."

"I started taking *Kruschens Salts* 10 weeks ago to get weight on, then weight was gained and now 12 lbs. I am anxious to get down to 112 lbs., and suppose I will do it with *Kruschens Salts* which does me good all the time. Am most thankful I saw your announcement."

—L. W. V.

Unlike most salts, *Kruschens* isn't simply a laxative. When you take *Kruschens* you help to cleanse your liver and kidneys to function naturally and perfectly, but you supply very important salts which are easily absorbed by the body and filter in the body with Nature's own remarkable system of elimination.

Get a bottle of *Kruschens Salts* today, and take one-half a teaspoon in a glass of water every morning before breakfast.

Before you take a bottle of *Kruschens* you will probably feel a slight laxative effect. If you take *Kruschens* every day—step—step—grow stronger—nevers need medicines, and after a few months you will be ready for wholesome recreation—one million people already know it.

## FREE TRIAL OFFER

Send for our free booklet. It gives you all the facts about *Kruschens Salts* and how to use it. It will give you a great deal of information about the use of salts in the treatment of the various diseases.

Write to: *Kruschens Salts*, 1780, Importers McGivern Bros., Ltd., Etobicoke, Ontario.

## Willing To Help

### Paper Publicity Does Not Bother Prince of Wales

The Prince of Wales paid warm tribute to the British press in a recent speech and revealed that he does not mind in the least being made the subject of newspaper publicity.

Since he is the principal banner of the campaign of newspaper makers, which was attended by more than 300 editors and others prominent in the newspaper world, the Prince said he was not annoyed.

London (London's journalism centre) have always been very good friends indeed to me, and if I can repay part of my debt by affording the newspaper making craft with a bit of additional copy I am only too glad to do so."

Always keep Dougles' Egyptian Liniment at hand, ready to bring immediate relief to aches, sores and felonias. Stop bread poisoning. Prevent sore throat and quinsy.

Work on the system of highways from Cape Town to Cairo is progressing so rapidly that in the near future motor travel the length of Africa will be possible at all seasons.

Daddy—"Only fools are certain, Bobby; wise men hesitate."

Bobby—"Are you sure of that, Daddy?"

Daddy—"Yes, certain of it."

International conscience is the still small voice that tells a country when another country is the stronger.

## Christie's SNOW FLAKE SODAS

### THE HOUSE OF DREAMS-COME-TRUE

— BY —

MARGARET PEDLER

Author Of "The Spirit of the Hermit" and "For Ever."

Hodder & Stoughton, Ltd., London

CHAPTER XIV.—Continued.

She felt that only Judith could better comprehend Glyn's nature, she would not only be disposed to judge him less harshly, but, to a certain extent, would find healing for her own bitterness of resentment and hurt pride.

Judith was an unhappy woman, embittered by one of those blows in life which a woman finds hardest to bear. And Jean hated people to be unhappy.

It was a comfort for her with unaccustomed warmth, and after lunch completely won her heart by a candour seemingly akin to Jean's own.

"I've been quite glad to you since you came to Staple," she said frankly. "I understand you're Glyn's daughter, and I'm honestly ashamed of myself. I should have loved you at once—if you're rather a dear, you know!—but you're heard—now, please—if it's too late?"

Then, as Jean murmured an affirmative, she went on quickly:

"We're both bound to feel unfriendly to you because you happened to be Glyn's daughter, and I'm honestly ashamed of myself. I should have loved you at once—if you're rather a dear, you know!—but you're heard—now, please—if it's too late?"

It was curiously done, and Jean received the friendly overture with all the enthusiasm dictated by a generous and spontaneous nature.

"We're both bound to agree gladly," she said, smiling again—smiling.

"Yes, we'll make a fresh start!"

After that, things progressed surprisingly. The slight "gene" which had attached itself to Jean's nature vanished, and very soon, inspired by Judith's eager, interested questions, Jean found herself chattering away quite naturally and happily about her life before she came to Staple and confessing how much she was enjoying her new surroundings.

"It's all—soft, pretty, and old," she said. "I feel as if Staple must always have been here—just where it is looking across to the Moor, and nodding sombrely at the world."

"Of course you might. Adrian had gone into Exeter today, so we shall be alone."

Jean was conscious of an immense relief. The knowledge that Sir Adrian would not be anywhere on the premises seemed like the lifting of a weight.

Claire greeted her joyfully and proceeded to descend.

"I've been lunching at Willow Ferry," explained Jean. "So I thought I might as well come on here and have tea as well."

"Of course you might. Adrian had gone into Exeter today, so we shall be alone."

"Jean, I know," she nodded, though Jean had given voice to her thought. "It's just as if someone had opened a window and let the fresh air in, isn't it?"

### Her Heart Was So Bad Couldn't da Housework

Mrs. S. Dragoman, R.R. 2, Midland, Ont., writes: "I had been troubled with heart trouble for many years."

"My heart would beat so fast I could hardly breathe, and I had headaches, and dizzy and fainting spells."

"I took three boxes of Milburn's Heart and Nerve Pills and feel much better, and now I would not be without them in the house."

"Price 50¢ a box."

Sold at all drug and general stores, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

She collected her tools, and slipping her arm within Jean's, led her in the direction of the house.

"We'll have tea at once," she said, "and then I'll walk back with you part of the way."

"You're bent on getting rid of me quickly, then?"

"Yes"—seriously. "It—"there was little need to specify to whom the pronoun referred—"will be back by the afternoon, and for some reason another to be very much to be desired yet, just now."

"What have I done to offend?" queried Jean lightly. Somehow, with Sir Adrian actually away, it didn't seem of much importance whether he was offended or not. Even the house had had a different "feel" about it as they entered it.

"It's not anything you've done; it's what you are. I think, sometimes, that when a man is full of will and energy enough to have given himself up to wickedness, he can't help it. I think you're bent on getting rid of me quickly, then?"

"And what about you?" asked Jean, her eyes sparkling. On the other's delicate flower face with its pathetically curved lips and the look of trouble in the young blue eyes, she could see that she had won over Jean's heart.

"Oh, he's used to me. I'm only his wife, you see. Besides"—sheavertly—"he knows that he can effectively prevent me from making a splendid third wife."

The note of bitterness in her voice won over Jean again.

"I don't know how you bear it!" she exclaimed.

"One can bear anything—a day at a time," she answered with an attempt at brightness. "I have to look forward," she added in a lower tone.

The woman seemed to have been born to act the epitome of tragedy. Not yet twenty, and Chaire's whole philosophy of life was embodied in those four desolate words, "I never look forward!"

"Oh, people aren't really in the least plain-boiled or ordinary," observed Jean quietly.

"You're a bit odd, I verily believe." Jean turned her curiously for a moment. "I think I wish you were," she said abruptly.

She was not finding the part assigned to her by her brother any too easy. It complicated matters, when you're undoubtedly planning a sensible and sensible life for yourself, if that someone persists in inspiring you with little genuine impulses of liking and friendliness.

Jean herself was delighted with the result of her visit to Willow Ferry. She was convinced that Judith was a much nicer woman than she had imagined, or than anyone else imagined her to be, and when she took her departure, she hurried these warm words with a smile, and a reproaching burst, not a little for her first hasty judgment. People improved upon acquaintance enormously, she reflected.

She did not go straight back to the woman's room, but went towards Carrwood on the chance of finding Claire at home, and, Fate being in a benevolent mood, she discovered her in her garden, precariously mounted upon a ladder and occupied in nailing back a pane of glass.

Claire greeted her joyfully and proceeded to descend.

"I've been lunching at Willow Ferry," explained Jean. "So I thought I might as well come on here and have tea as well."

"Of course you might. Adrian had gone into Exeter today, so we shall be alone."

Jean was conscious of an immense relief. The knowledge that Sir Adrian would not be anywhere on the premises seemed like the lifting of a weight.

Claire's blue eyes smiled at her understandingly.

"I know," she nodded, though Jean had given voice to her thought. "It's just as if someone had opened a window and let the fresh air in, isn't it?"

To Be Continued.

### A Very Nervous Child

Aileen Lee Credits New Happiness To Benefits of Dr. Williams' Pink Pills.

Noise No Longer Bothered Her.

I am not quite 14 years old," writes Helen Lee, Dongola, Ont. "I was thin and nervous. I would rave at the top of my voice and wake up all through the house in my sleep. Mother sent me away for a long vacation. I gained 10 pounds. I was just as bad. One day mother bought me three boxes of Dr. Williams' Pink Pills. I have gained 9 pounds since September, and it takes a lot more noise to bother me now. I have to go to the doctor every check again! It's a delight to tell others what Dr. Williams' Pink Pills did for me."

She did not go straight back to the woman's room, but went towards Carrwood on the chance of finding Claire at home, and, Fate being in a benevolent mood, she discovered her in her garden, precariously mounted upon a ladder and occupied in nailing back a pane of glass.

Dr. Williams' Pink Pill effect such as this is due to the fact that the medical effect is to catch the blood, which restores the exhausted nerve forces to the full system. At your druggist's in the new glass container. 5¢ a package.

—S. C. G.

Like Continental Dish

In New York Eat Millions Of Frog's Legs

The circumstance that more than 30,000,000 pairs of frog's legs are annually consumed in the kitchens of New York City must appeal to those with a penchant for combining statistics with gastronomy as of some culinary significance. Chicago also is a "frog's legs" conscious community with an annual consumption of 25,000,000 pairs of extremities, while San Francisco comes third with the disposal of a creditable 8,000,000. But it is the New York figure which is of interest, as indicating that frog's legs are no longer a delicacy which appeals to the trained Gallic palate alone.

The French population of New York may be shocked, and, as is hardly probable, that the French man, woman and infant can account for a thousand pairs a year, it would seem that Americans, too, have cultivated a taste for a dish long held to be an exclusively Continental.

"It's all—soft, pretty, and old," she said. "I feel as if Staple must always have been here—just where it is looking across to the Moor, and nodding sombrely at the world."

"Of course you might. Adrian had gone into Exeter today, so we shall be alone."

Jean was conscious of an immense relief. The knowledge that Sir Adrian would not be anywhere on the premises seemed like the lifting of a weight.

Claire's blue eyes smiled at her understandingly.

### WORLD HAPPENINGS BRIEFLY TOLD

George C. Bruce, 82, world famous botanist, died recently.

A high power radio station to be erected at Daventry, England, this year will broadcast programs to all parts of the Empire.

The Prince of Wales will unveil the memorial to the missing at Thiepval, on the Somme, on Whit-Sunday, May 16.

Canadian exports of live cattle to the United Kingdom reached 27,735 head in the year ended November, 1931.

Women have voted for the first time in the history of Greece. The occasion was the municipal elections of Piraeus, near Athens.

At the beginning of 1931 Canada had a total of 8,572 grain elevators with a capacity of 414,660,260 bushels.

Although Great Britain built more ships last year than any other country, her output fell by 976,000 tons compared with 1930.

According to advices received from the Canadian Department of Trade and Commerce, representative at Cairo, Canadian apples are scoring high on the Egyptian market.

Registered letters to foreign countries will not be allowed to leave Austria under a new law censored to prevent stamping of violations of foreign exchange restrictions.

With only nine or ten miles yet to be cut, Hudson Bay Junction is now assured of road connection with the northern Manitoba metropolis of The Pas by 1933.

Patatoes were grown at Dunvegan, in Peace River district, as early as 1910; in that year nine bushels planted on May 10, yielded 150 bushels on October 3.

A national advertising campaign, chiefly through newspapers, to acquaint the people of Canada with home-grown fruits and vegetables will be undertaken by the Canadian horticultural council.

### Advance in Photography

#### New Synthetic Dye Records Hitherto Invisible Objects

A new synthetic dye which photographs hitherto invisible objects was reported to the Optical Society of America by Dr. C. E. M. Mies, director of research of the Eastman Kodak Company.

This dye, xenoxydine, when used in emulsion on a photographic plate, records very fine details of heat radiation which were until light. The newly-photographed radiation infra-red waves much longer than anything hitherto rendered visible.

The new dye "sees" these waves on the infra-red spectrum. An angstrom unit is about one-twenty-five-millionth of a part of an inch. So this latest step into the invisible picks up a wavy less than a twenty-thousandth of an inch long.

Objects photographed with infra-red have the same appearance as those seen with visible light.

Watchers which hold a lipstic when used in a fashion in Paris; when the lipstick is turned up for use the movement lights the watch.

Japan's foreign tourist trade has declined one-half in the last year.

### Experiment In Education

#### Opportunity School In Denver Is Flung a Red Card

A unique experiment in education, carried on for the last sixteen years by the city of Denver, is described in a recent report prepared for the Association for Adult Education by Professor Fletcher H. Swift, formerly of the University of Colorado, and an associate. It is known as the "Opportunity School," and owes its existence to the intelligence and initiative of Miss Emily Griffith, a grade teacher who saw a pressing need and decided to do something about it.

A street laborer, too old to work, was taught the rudiments of book-keeping and a position found for him. Another man, a house painter, who had not earned his living in his own home. A young boy was given money for a bath, bed and breakfast, with instructions to return the next day. A job was found for him, and he was given a place to live in a shanty, built by another boy, who stammered. This boy is a moron." When asked, "Can you read?" he replied, "No, I can't read, I can't write, I can't do what you are reading about." He received a gift with a pencil and was put in a showcard class, where he made good. Dozens of similar stories are told to show the scope and variety of work done by this school. Every training in etiquette and social usage has been included. Minneapolis Journal.

"There's nothing to worry about now, darling, because lightning never strikes more than once in the same place." — The Humorist, London, England.

"There's nothing to worry about now, darling, because lightning never strikes more than once in the same place." — The Humorist, London, England.

### Gardening Notes

#### A GOOD LAWN

The lawn is absolutely essential from the standpoint of beauty in connection with any garden, an even greater means of beauty, a green setting off brilliant flowers and making an ideal spot for the children to play in. We can use grass for our paths between the beds, though if the paths are wide it may not stand up so well as more substantial materials like brick, flagstones, gravel, concrete or cinders. Our lawn must be even, the grass should be a dark green, there should be no weeds and no bare spots. In planning a permanent lawn of this kind most of the work must be done in advance. It is essential that the ground be thoroughly dug and levelled before the grass is sown. The soil should be a peat soil, with a chance to spread when cultivate to kill them before we seed down. Late frosts and heavy spring rains will settle the soil after which should be a good topsoil. Grass like other plants responds to fertilizers, and while well rotted manure is one of the best agencies in this connection, in the case of lawns it is not so advisable as commercial fertilizer or a mixture of the danger of nitrogen. Nitrogen, which furnishes the green growth, is the best to use. A vital factor in this, as well as all other forms of growing, is the soil. The soil is the medium of distributing the market and price vary. But good grass costs money because seed giving a fine, velvety award that will stand up year after year is expensive. Commercial fertilizer is the best for grass, the first year, but hill out badly with frost and are inclined to develop more and more into coarse, rank-growing grass as time goes on. Reputable seed houses have a guarantee for a year for their grass, and protection only handles grass that will give the best results under Canadian conditions and their mixtures, tested and approved by Canadian officials, are said. One pound of seed is required for every 100 square feet, and where the ground is shaded, a special seed should be used. Roll or pound the seed to ground thoroughly. The same seed should be used for sowing bare spots and for renewing. The seed should be raked in thoroughly and some protection against birds, like wire or branches, should be placed over the newly sown spot.

**GOOD SEED IS FOUNDATION**

Because seed is so cheap and one of the least important factors in the cost of gardening, we are too apt to overlook its importance. Good seed is essential and we should purchase that which gives the best results.

Certain varieties which may give wonderful results in England or the Southern States are not likely to do well in our country, and on this account gardeners are strongly advised to obtain their supply of both seeds and plants from Canadian sources.

**INTERESTING CROSS-OVER ARRANGEMENT GIVES SMART LENGTHENING EFFECT**

There are a few amongst us who don't like to wear a boy's coat.

And who is a joy to a model is the woman of heavier build.

Carry it out as its inspirator in the style of a boy's coat, with a belt.

Style No. 978 is designed for sizes 36, 38, 40, 44, 46 and 48 inches.

It is a boy's coat, but it can be worn by a girl.

It is a boy's coat, but it can be worn by a girl.

## PREMIER DENIES IN EVERY DETAIL CHARGES MADE

Ottawa, Ont.—Major W. D. Hertridge, Canadian Minister to Washington, paid a visit to the Canadian Parliament on Monday last year and was not receiving a salary from the Canadian Government while absent. He testified to this effect before a parliamentary committee sitting to investigate the charges of corruption made in the House of Commons last January by G. N. Gordon, K.C., former deputy speaker of the House of Commons. Premier R. B. Bennett also denied charges, allegedly made at the same time, that Gordon and others he assumed others as Prime Minister he secured a new private railway car at a cost to the public of \$12,000.

The inquiry is based on a report of the speech made by Mr. Gordon on the night of January 6, last, prior to the election.

Mr. Bennett said he had denied the charges when they were first brought to his attention; but later, when he found that they were receiving such widespread publication, and when he was asked why they were being "branded as a thief," he felt that out of respect to his office there should be a complete investigation.

The Premier made a most sweeping denial of the charges in every detail. Mr. Hertridge had an enjoyable winter's trip and the expenses of his public tour may not have been in excess of his salary at the time. Further, he testified, Major Hertridge had not received any recompensation when he attended the Imperial Conference as Mr. Bennett's personal assistant, and had borne a large share of his own expenses at that time.

William Duff (Lib., Antigonish-Guyoboro) said Premier Bennett had not been wrong in his statement that Mr. Gordon made what was then what he had claimed was an apology and retraction. Mr. Bennett replied that Mr. Gordon had made no apology or retraction that could be accepted in a legal sense. He then said Mr. Duff although a lawyer, would grasp the significance of that fact.

"I'm a sea-lawyer," declared Mr. Duff.

"Oh," the Prime Minister exclaimed. "The other day I heard you referred to as a sea-lawyer."

The inquiry was carried out with apparent good feeling by all parties and Premier Bennett stressed the point that he was making no public complaints of allegations that reflected on the honour of the government. He was to be expected in public life, he said. But the fact was that, if the charges were true, he was not fit to head the government, and he was determined to prove that they were groundless.

## Doukhobors For South America

### Plan For Large Scale Settlement From Europe

Winnipeg, Man.—Plans for large scale settlement of the Doukhobors in various countries of South America are under discussion at a conference of Doukhobor leaders and agents here. Peter Veregin, patriarchal head of the Orthodox Community of Universal Brotherhood, the official name for the Doukhobor sect, disclosed the nature of the conference to the Canadian Press.

The Doukhobors are a religious sect who have agreed to settle in South America on which to settle 50,000 Doukhobors. This project, however, had nothing to do with the Doukhobor community in Canada, Peter Veregin said. This was a proposal of the Canadian Doukhobors to South America.

From any intention to move out of Canada, Mr. Veregin said his organization was purchasing more grain elevators for the use of their people and developing water power to serve their settlements.

J. Mackayne, St. Paul, Minn., president of the Doukhobor Association, on which is negotiating the land deal in Colombia, is taking part in the conference. Another delegate is a man named Foster from Berlin, Germany. Mr. Veregin denied that the dragon flag of Wales should fly over the castle March 1. St. David's Day.

## Higher License On Radio Receiving Sets

### Annual Fee Has Been Increased To Two Dollars

Ottawa, Ont.—The annual license fee for receiving radio sets has increased as from April 1 next to \$2 per year, it was announced by Alfred Duranseau, Minister of Marine. This fee has been \$1 per year in the past and the increase is expected to bring an annual revenue to nearly \$1,000,000.

The minister also stated that an increase in the license fees for commercial broadcasting stations on a graded basis, was under consideration.

### Welsh Students Destroy Flag

#### Nationalists At Carnarvon Tear Union Jack To Shreds

Carnarvon, Wales.—Welsh Nationalists hauled down the Union Jack from historic Carnarvon Castle and cut it to shreds in the market place.

Their action was a reprisal for the government's refusal to accede to the Welsh Nationalist request that the red dragon flag of Wales should fly over the castle March 1, St. David's Day.

## FINANCES OF GREAT BRITAIN ARE IMPROVED

London, Eng.—Britain's improved financial condition was reflected in the announcement of Neville Chamberlain, Chancellor of the Exchequer, that British citizens again may buy foreign exchange.

Restrictions against the purchase of foreign exchange were imposed to protect the pound when Britain suspended the gold standard last year.

Asked whether restrictions against foreign loans would be lifted, the Chancellor indicated it would be "unwise to let me promulgate overseas."

A cheer arose in Commons when Mr. Chamberlain confirmed that \$10,000,000 of \$20,000,000 borrowed from the Bank of England had been repaid the pound, he will be repaid.

The Chancellor added that a credit from French bankers of \$20,000,000 (\$30,000,000) for the same purpose has been reduced to \$10,000,000 (\$24,000,000).

Mr. Chamberlain recalled that an additional \$20,000,000 of French advances last August were represented by Treasury notes which had been held in the hands of the French bankers.

He referred to the situation in Ontario, however, where the chief justice of the supreme court is acting as administrator of the province, no lieutenant-governor having been appointed to the vice-crown office.

The legislature was at the time discussing estimates and had the items for expenses of the lieutenant-governor's office under consideration.

## Aid For Farmers

### Bill To Provide Seed Grain Introduced in Manitoba Legislature

Winnipeg, Man.—Manitoba farmers in need of seed for their livestock and seed grain, will be aided under a measure introduced in the provincial legislature by Hon. Albert Parent, member for Brandon. The bill is intended to assist parts of the province stricken with total crop failure and will be speeded through all stages to become law at an early date.

The province will guarantee loans by banks to municipalities for the purchase of seed grain and fodder. Any possible loss on the loans will be shared on a three-way basis by the farmer, the bank and the municipal government. The bill, however, contains compensation of advances by farmers receiving relief.

So far, it was stated, the Dominion government has not agreed to give the bill assent but it had offered to lend the province funds necessary for seed grain and fodder relief.

### Asks Definition Of Definition

Ottawa, Ont.—What is a billion? That is the question which the Senate committee on finance is trying to answer. Senator Parent informed the senate that an English dictionary defined a billion as a million million, but added that this definition did not apply to the United States where a billion is a thousand million. Senator Parent wished to know which rule applied in Canada. The answer will probably be forthcoming in due course.

### Manitoba Not Floating Loan

Winnipeg, Man.—Officials of the Provincial Treasury's Department denied the Manitoba Government would float a loan of \$5,000,000. No preparations for such a loan are being made, Senator John Balston, of the Government is watching developments in the financial markets but has no present thought of a domestic issue.

### Steps To Royalty

Lethbridge, Alta.—Believed to be the oldest man in Alberta, Andrew Jameson, of Ainslin, a community near Cardston, is dead. He was 104 years old. He was born in Norway, emigrated to United States in 1887, and came to Alberta in 1887. Descendants of the fifth generation survive him.

### Manitoba Not Floating Loan

Winnipeg, Man.—Officials of the Provincial Treasury's Department denied the Manitoba Government would float a loan of \$5,000,000. No preparations for such a loan are being made, Senator John Balston, of the Government is watching developments in the financial markets but has no present thought of a domestic issue.

## WOULD ACCEPT LEADERSHIP

### Rescued From Snowslide Sectionman Buried In Drift For Twenty-Six Hours

New Westminster, B.C.—Buried in an enormous snowdrift for twenty-six hours, John McLean, a Canadian railway sectionman, was rescued alive and is now recovering in hospital here. He is suffering from frozen hands and feet and from exposure.

Peebles, Scotland.—John McLean, when the snowslide caught him and buried him under about eighteen feet of snow. All afternoon and night he battled vainly to fight his way out of the drifts, but was unable to find his way to keep him alive.

When Peebles failed to return fellow workers suspected his fate and finally succeeded in digging him out, alive but unconscious.

## UNEMPLOYED DEMAND IS MET BY A REFUSAL

Ottawa, Ont.—Representatives of the unemployed who from many Canadian cities converged on Ottawa, met the government in the railway station, and presented a petition to the Prime Minister that their "demands" for a system of non-contributory insurance at union wage rates for all unemployed above 16 years of age were to be met. The petition, which could not be met.

The "demands" was that a fund be established through a levy on incomes above \$5,000, confiscation of wealth and savings from armaments and that this fund be administered by a committee set up by the government themselves. The government had promised an investigation into a contributory system, with employers and workers participating. Mr. Bennett rejected the demands.

The delegation was also told that a fund established through a levy on incomes above \$5,000, confiscation of wealth and savings from armaments and that this fund be administered by a committee set up by the government themselves. The rate of interest being charged the borrowing banks was three per cent. and the lowest rate of interest charged the banks for such advances during 1931 was three per cent. The Minister of Finance declared.

## Dominion Note Advance Totals Twenty Million

### Commercial Telegraphers Asked To Take Two Per Cent. Cut

Montreal, Que.—The Canadian Pacific and Canadian National Railways Companies have notified the Commercial Telegraphers' Union that for one year, starting April 1, there will be a salary reduction of 10 per cent. which will be introduced in the pay of commercial telegraphers. The companies' decision has been communicated to the various locals. Seven hundred employees of the Canadian National, 1,500 C.P.R. C.P.R. employees are affected.

The Canadian Pacific Railway Company, Wednesday, Feb. 2, announced that effective March 1, the reduction in pay, starting to telegraphers 10 days per month without pay among general office staff has been changed to two days per month. This brings this class of employees approximately 850 to a salary of wage reduction as they are applying to the running trades and clerks.

Decide On Valuation Of Empire Goods

### France Thinks It Has Become Political Question

Paris, France.—A growing desire to settle the reparations problem on the basis that it has now become a financial question and has been primarily a political one, was reported in diplomatic circles.

Premier Andre Tardieu, who represents the French delegation to the conference at Geneva, had a conference with Leopold Von Hoesch, the German ambassador, and Andre Francois-Poncet, French ambassador to Berlin.

Two were afterwards released. The delegation is to meet in a hall. They were informed that the government would meet them if they limited their delegation to 35 persons.

The delegation reached the Parliament Buildings at 2:30 p.m. Royal Canadian Mounted Police had taken precautions to prevent disturbances, and there were none.

Edmonton, Alta.—Hungry marchers stranded in Edmonton where they gathered recently from all parts of the country to present their demands to the provincial government, would be aided in returning to their homes, Premier J. E. Brownlee said. He added, however, that only in cases where it was impossible for the marchers to pay their own transportation would any assistance be given.

Winnipeg, Man.—Demanding immediate relief for all young workers, trade union wages, all relief workers, and those who had been sent for military training to unemployment relief some 1,500 men marched to the provincial parliament building. Police watched the marchers to see that order was observed.

Use Panama Route

### C.N.R. Steamships May Inaugurate Fortnightly Freight Service Between Montreal and Vancouver

Montreal, Que.—The Canadian National Steamships announced the possibility of a fortnightly freight service between Montreal and Vancouver.

Although not agreeing with the government's policies, the group, he said, voted the motion as pure party politics. A. W. Nel, Connex-Albion, and J. E. Brownlee, of the two independent delegations, also said that would not support the Hennan motion.

Unemployment, said Mr. King, had become a national crisis. The government's remedial policy had failed, yet it offered no solution. The only thing it had taken was to propose a resolution to prolong for two months the life of the "blank check" legislation.

But even this had failed because the act automatically expired at midnight.

"I believe this problem of unemployment," proceeded Mr. King, "is going to be with us, not only for several months yet, but I fear for possibly two or three years."

Establishment of a national committee to advise the government, was advocated by the Liberal Leader. It would represent labor, farmers, consumers, business, trade, public, cross and other organizations with special knowledge of conditions.

Parliament took official notice of the "bad cheque artist" when it considered a government bill to tighten the law against that practice introduced by Hon. Hugh Guthrie, Minister of Justice, it stood for reading after being passed by the House in Committee. Under it, a man who paid a bill with a blank check, would be prosecuted for securing goods under false pretences. The onus of proving himself innocent would be on the accused.

This intercolossal service, maintained between Vancouver and St. John's, N.B., and Halifax in the winter season, "has been a Pacific coast masterpiece," Mr. King said, "but the eastern Canadian ship manufacturers economically," the announcement says. Lumber from British Columbia and general merchandise from eastern Canada are the commodities carried.

Speed King Visits Canada

### Sir Malcolm Campbell Is Welcomed At Toronto Luncheon

Toronto, Ont.—"I feel certain there is more speed in the old car yet," declared Sir Malcolm Campbell, British speed ace, in an address at an Empire club luncheon here. "I do think that car of mine is a record breaker in high workmanship and materials, especially when it is considered it is just a little over eight years old."

Sir Malcolm was welcomed to the city when he was a guest of the Honourable William Stewart, president of the Empire club. At luncheon the speed king was welcomed on behalf of the Province of Ontario by Premier George S. Henry.

### CLASH OVER AIR FORCE DISMISSALS

Hom. J. L. Ralston (left), former Minister of National Defence in the King government, and Hon. D. M. Sutherland (right), Minister of National Defence in the Government of Alberta, clashed in the House of Commons debate on air force salary reduction, when the matter of the dismissal of 166 officers and men of the Royal Canadian Air Force was discussed. Col. Ralston described the dismissal of the men as a breach of contract. Col. Sutherland defended the Government's action.
